Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claims 1 and 23, lines 11 respectively; delete "a" (first occurrence) and insert --each--.

In claim 16, lines 3 and 7: delete "the" and insert --a--.

In claims 21, 22 and 29, lines 4 respectively: delete "the" and insert --a--.

In claim 30, line 7; and claim 31, line 5: delete "the" and insert --a--.

Authorization for this examiner's amendment was given in a telephone interview with Michael Atlas on 05/28/2004.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach an apparatus and method for reassigning string codes in a data compressor that compresses an input stream of data characters into an output stream of compressed codes, comprising: a plurality of coincidence elements corresponding to a respective plurality of codes to be assigned to strings, a string being comprised of a prefix string of at least one of said data characters followed by an extension character, a prefix string having a prefix code associated therewith, each coincidence element providing a coincidence output and having a prefix code input and a character input for enabling the coincidence element to energize the coincidence output thereof upon coincidental energization of the inputs thereof so that energization of a coincidence output of a coincidence element provides a representation of the code corresponding thereto; first coupling means for selectively coupling the representations of codes corresponding to the coincidence elements to the prefix code inputs of the coincidence elements; second coupling means for selectively coupling representations of data characters fetched from said input stream to the character inputs of the coincidence elements; means for recording extended strings in said coincidence elements, an extended string comprising a longest matching string extended by the data character following said longest matching string; and, means for reassigning a coincidence element to an extended string to be recorded when further codes are unavailable for assignment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
